I am very sorry that their conditions are so very serious. I will get back to you on how Epa can or cannot respond to your questions. Thank you

## Ex. 6 - Personal Privacy

> Can you share with me whether you are likely to bring criminal charges and civil violations and fines? Can you impound their inventory? Can you share with me the PRPs.? I need to start looking at jurisdiction given the gravity of the situation. If Steve is dying I would like to bring a civil action before he dies. I would contemplate an expedited civil action while he is living. If there are Federal violations, that may be basis for a federal question. I am deferring to EPA as not to interfere with what you need to. Are there victims compensation on what you may change the PRPS? The family is Ex. 6 - Personal Privacy Ex. 6 - Personal Privacy and know Terminx has had many prior misuses of this product across the world with methyl bromide. They know that this should not happen in the U.S. and the product banned for this application.

> OSHA also as quite a track record with Terminx with violations of this chemical and I think so does EPA. Recognizing you are not obligated to do so, I hope you can give me some guidance where the agency is coming from. This case is highly unusual and horribly tragic. Should I direct these questions to the prosecutor at the Department of Justice assigned to this matter?
